

I want to express my concern with the possibility of losing my ability to listen to K-LOVE radio on a FM translator. I listen to K-LOVE everyday as it is an important part of my day. It serves me as a resident of my local community, as many people around me listen as well. It would be a major blow if K-LOVE and other radio stations that are being broadcast on FM translators were displaced by LPFM broadcasts. I believe that keeping K-LOVE and other FM translators on the air is in the best interest of all listeners and the general public.
